

# 10th Anniversary Light Sheet Fluorescence Microscopy Conference

## Monday 13 August 2018

### Light sheet hardware 1: Light sheet hardware 1 (09:00-10:30)

| time  | [id] title                                                                                       | presenter            |
|-------|--------------------------------------------------------------------------------------------------|----------------------|
| 09:00 | [86] Resolution and applications of LSFM in the life sciences                                    | Prof. STELZER, Ernst |
| 09:15 | [76] Applications and extensions of SCAPE microscopy                                             | HILLMAN, Elizabeth   |
| 09:30 | [87] Adding Dimensions to Light Sheet Imaging                                                    | Prof. FRASER, Scott  |
| 09:45 | [45] Dual illumination inverted light sheet microscope for long term live imaging                | Dr STRNAD, Petr      |
| 10:00 | [13] The mesoSPIM initiative – open-source light-sheet microscopes for imaging in cleared tissue | VOIGT, Fabian        |
| 10:15 | [47] Single- and multi-photon shaped illumination for light-sheet fluorescence microscopy        | Dr NYLK, Jonathan    |
