

# 10th Anniversary Light Sheet Fluorescence Microscopy Conference

## Monday 13 August 2018

### Image analysis of light sheet data: Image analysis of light sheet data (17:00-18:30)

time	[id] title	presenter
17:00	[90] Different Rigs for Different Gigs	Prof. MYERS, Eugene W.
17:15	[91] Bioimaging information: combining light sheet imaging with single cell transcriptomics	Dr HUFNAGEL, Lars
17:30	[79] Content-Aware Image Restoration and Quantitative Downstream Analysis	JUG, Florian
17:45	[46] Towards next generation imaging pipelines using the Adaptive Particle Representation.	CHEESEMAN, Bevan
18:00	[68] Light propagation in retinal tissue and in silico	SUBRAMANIAN, Kaushikaram
18:15	[67] BigStitcher: Reconstructing high-resolution image datasets of cleared and expanded samples	HÖRL, David
