

# 10th Anniversary Light Sheet Fluorescence Microscopy Conference

## Wednesday 15 August 2018

### Miscellaneous applications of light sheet microscopy: Miscellaneous applications of light sheet microscopy (11:15-12:45)

time	[id] title	presenter
11:15	[98] Imaging photosensitive reef-building corals	Dr LAISSUE, Philippe
11:30	[85] Root organogenesis is biased towards the availability of water	VON WANGENHEIM, Daniel
11:45	[99] Macro LSFM with sTSLIM (scanning Thin-Sheet Laser Microscopy)	SANTI, Peter
12:00	[50] Conditional control of fluorescent protein degradation by an auxin-dependent nanobody	Dr MANSFELD, Jörg
12:15	[5] Imaging Intestinal Invasion by <i>Vibrio cholerae</i> , and other Stories from the Gut	PARTHASARATHY, Raghuveer
12:30	[12] Molecular mapping of developmental disease progression using HiTS-FAST	Prof. SHEPHERD, Douglas
